Camellia Tree Decorative Textile Mural

Elegant birds perch among the winding branches of blooming camellias in the Camellia Tree Decorative Textile Mural. This three-panel repeating design is part of Bethany Linz's Chinoiserie collection and was originally hand-painted in gouache on stone henge paper. Enhanced by the tactile quality of the decorative textile, the mural brings a sense of scale, movement, and seasonal bloom to any space. Available in seven colourways to suit a wide range of interiors.

Designed as panels that are 129.922 (330cm) high x 242 (61.5cm) wide.

Each roll comes with 3 panels. The horizontal pattern will repeat every 3 panels.

SUSTAINABILITY

- Cellulose-Based Construction: This wallcovering is made with a cellulose fiber substrate (40–70%), a renewable and plant-derived material that supports more sustainable sourcing practices compared to purely synthetic alternatives.
- Low VOC Composition: The product includes acrylic latex and processing agents, and it meets flame resistance standards including ASTM E 84 Class A. While not specifically labeled as low-VOC, acrylicsaturated papers are typically compatible with low-emission adhesives and coatings, supporting better indoor air quality when installed with water-based systems.
- No PVC Content: This wallpaper does not list any use of polyvinyl chloride (PVC), a material commonly found in traditional vinyl wallcoverings. The absence of PVC helps reduce reliance on harmful synthetic materials and lowers environmental toxicity during manufacturing and disposal.
- Lightweight and Durable: At 166 g/m², this wallcovering offers a
 balance between durability and efficient use of raw materials. Its
 composition allows it to meet demanding flame, chemical, and
 lightfastness standards, extending product lifespan and reducing the
 need for frequent replacements.
- Cleanability and Maintenance: Designed to be washable with a soft sponge or vacuum, it minimizes the need for harsh cleaning chemicals that can harm indoor air quality and the environment.

BATCHING & DELIVERY

 Note: Samples of this wallcovering are provided for review of the material, pattern scale and print technique – they are not intended to be used for colour matching purposes. There can be slight shifts in colour between runs, so your wallcovering may vary slightly from sample colouring.

- Please ensure that you order the correct amount as we do not guarantee that rolls printed in different batches will be an exact match.
- Industry leading production times on all orders.

ADDITIONAL INFO

At Milton & King we have a luxury range of grasscloth wallcoverings for you to choose from whether you're decorating your hallway, living room, bedroom or dining room we have a wallpaper to suit your style and budget! With more than 750 wallpapers, we are bound to have the statement wallpaper you have been looking for. Grasscloth wallcoverings can be used in residential, commercial and hospitality interior design projects to add features with natural and specialty materials. Combined with superior customer support and quick delivery times.

Natural resource wallcovering important considerations

- Anti-microbial features Grasscloth wallcoverings contain bactericides and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
- Paste-The-Paper Made from natural fibres, these wallcoverings will expand when adhesive is applied. Simply apply the paste directly to the back of the paper—be generous, but avoid using excessive paste. Allow for booking time, as the wallcovering will expand slightly during this period before hanging.
- Book the wallcovering "Booking" is a process where you fold the
 pasted sides of the wallcovering together, adhesive-to-adhesive, with
 the pasted side facing inwards. This allows the paste to activate and
 helps prevent it from drying out before you hang the wallcovering.
 Leave the booked wallcovering a few minutes.
- The wallcovering rolls are finished precisely to have no overlap.
 Meaning the panels simply butt up to each other for ease of installation.
- Spongeable Dirt, dust, and other marks can be cleaned with a slightly damp sponge (do not use any solvents).
- Wet removal is a common method for removing grasscloth & natural wallcovering. However, because grasscloth is made from natural materials, it can be delicate and requires a bit of extra care during the removal process to avoid damaging the walls.
