Metallic Sisal Grasscloth Wallpaper

Elevate your space with a touch of modern elegance. Delicate silver tones delicately dance with light, infusing your walls with a mesmerizing depth. The natural sisal grasscloth texture harmoniously blends contemporary design with organic beauty, creating a seamless fusion of sophistication and nature-inspired aesthetics.

Designed for residential, commercial, and hospitality settings, our grasscloth wallpaper is a versatile masterpiece. Whether you're transforming a cozy corner at home, enhancing a commercial environment, or curating a welcoming atmosphere in a hospitality establishment, our grasscloth wallpaper offers a timeless canvas for redefining spaces with elegance and style. Embrace the allure of contemporary design and natural textures to redefine your surroundings today.

All Grasscloth & Natural sales are final, no refunds or exchanges.

IMPORTANT GRASSCLOTH & NATURAL WALLCOVERING INFORMATION

Grasscloth and natural is a favored wallcovering due to its natural material composition and eco-friendly nature. It offers a classic, timeless aesthetic once installed. However, grasscloth and natural wallcoving can be more costly, challenging to install, and demands more maintenance compared to standard wallpapers. Here are some key points to understand before selecting grasscloth and natural wallcoverings:

SUSTAINABILITY

- Natural and Renewable Materials: Our grasscloth wallcoverings are made from natural seagrass fibres. These fibres are renewable resources, as they come from plants that can be replanted and harvested sustainably.
- Grasscloth & natural wallcoverings are biodegradable, meaning they
 can naturally break down over time without causing harm to the
 environment. They can also be composted, reducing waste and landfill
 burden.
- Low VOC and Non-Toxic: Many grasscloth & natural wallcoverings are manufactured using water-based adhesives and inks with low volatile organic compound (VOC) content. This reduces indoor air pollution and improves indoor air quality, making it healthier for occupants.
- No PVC or Vinyl: Grasscloth & natural wallcoverings are generally free from PVC (polyvinyl chloride) and vinyl, which are materials commonly found in traditional wallpapers. Avoiding PVC and vinyl reduces the use of harmful chemicals and synthetic materials.

BATCHING & DELIVERY

 Note: Samples of this wallcovering are provided for review of the material, pattern scale and print technique – they are not intended to

be used for coluor matching purposes. There can be slight shifts in colour between runs, so your wallcovering may vary slightly from sample colouring.

- Please ensure that you order the correct amount as we do not guarantee that rolls printed in different batches will be an exact match.
- Industry leading production times on all orders.

Combined with superior customer support and quick delivery times throughout Europe.

Natural resource wallcovering advantages

- Anti-microbial features Grasscloth & natural wallcoverings contain bactericides and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
- Paste-The-Paper Made from both natural fibres. These wallcoverings will expand from the adhesive. Simply apply the paste directly to the paper, be generous but avoid excessive paste. The wallcovering will expand with booking time required.
- Book the wallcovering "Booking" is a process where you fold the
 pasted sides of the wallcovering together, adhesive-to-adhesive, with
 the pasted side facing inwards. This allows the paste to activate and
 helps prevent it from drying out before you hang the wallcovering.
 Leave the booked wallcovering a few minutes.
- The wallcovering rolls are finished precisely to have no overlap.
 Meaning the panels simply butt up to each other for ease of installation.
- Cleanable Dirt, dust and other marks can be simply cleaned using a damp cloth with soapy water or with a light vacuum to remove surface dirt.
- Wet removal is a common method for removing grasscloth & natural wallcovering. However, because grasscloth & natural is made from natural materials, it can be delicate and requires a bit of extra care during the removal process to avoid damaging the walls.
- Roll Size 24ft (7.3m) x 3ft (91.4cm).
